Passionate software developer focusing on building cross-platform web and mobile applications from the ground up.

EDUCATION

BSc (Hons) in Computer Engineering
General Sir John Kotelawala Defence University, Sri Lanka

Upcoming Graduate

AREAS OF EXPERTISE

- **Web Development:** Creating responsive, fluid applications with modern interface frameworks.
- **Software Development:** Building reliable system utilities, optimizing background logic, and writing efficient backend service architectures.
- **Mobile Application Development:** Designing fluid user interfaces and native mobile apps with cross-platform synchronization pipelines.

TECHNICAL SKILLS

Languages:	HTML5 (95%), CSS3 (80%), JavaScript (85%), C++ (88%), Java (70%), Python (50%), PHP (50%), Go, Rust, Dart
Databases:	MySQL (80%), SQLite
Tools & Frameworks:	Git & GitHub (88%), Flutter, gRPC, Photoshop (78%)

FEATURED PROJECTS

- Quantum Ledger — HTML5, CSS3, JavaScript**
A real-time data streaming dashboard designed for monitoring blockchain node behaviors, tracking distributed database lag metrics, and micro-second data pipelining.
- NovaCore Engine — GO, RUST, gRPC**
An ultra-low latency serverless compiler utility optimized for system edge networks. It isolates system environment clusters and handles asynchronous file parsing smoothly.
- OrbitSync — Flutter, Dart, SQLite**
A cross-platform cloud file-synchronization tool utilizing secure peer-to-peer connection hashes. It enables lightning-fast local asset management on the move.
- SaaS Landing Page — HTML5, CSS3**
A beautiful cosmic landing page web application.
